

POLICY ON ALCOHOL, DRUG AND GAMBLING ADDICTION

We will provide this policy on request at no cost, in large print, in Braille, on tape or in another non written format.

Policy on Alcohol, Drug and Gambling Addiction

POLICY PURPOSE AND APPLICABILITY

This policy provides advice and guidance to managers on how to deal with situations where an employee may be experiencing problems with alcohol, drug or gambling addiction and describes GHA provisions to help deal with these problems.

This policy applies to all employees of GHA. It does not apply to agency workers or self-employed contractors. This policy does not form part of any employee's contract of employment.

GHA recognise that alcohol, drug and gambling related problems are primarily areas of health and social concern and can have an adverse effect on employment.

Any employee who has an alcohol, drug or gambling problem is encouraged to seek help and guidance, at an early stage, on how to deal with such a problem. GHA are committed to arranging advice and counselling, where possible, for any employee with such a problem. It is GHA's policy to preserve employment for those employees who co-operate with a recommended programme of recovery.

Any decision to grant special leave, changes of duty etc. lies ultimately with management and will be in accordance with GHA policies.

• Section J	Policy Development	Page 7

SECTION A - IDENTIFICATION OF PROBLEM

It is recognised and accepted that alcohol and drug addictions are health problems and are defined in general terms as the continuous or intermittent use of alcohol or drugs leading to dependence or harm. In a workplace context, GHA views alcohol, drug and gambling addiction as a behavioural problem, which can affect the performance of an employee at work.

Early identification of an alcohol, drug or gambling addiction will, in GHA's view, lead to a quicker recovery and we expect that employees who suspect or know that they have such a problem will come forward voluntarily to seek help and guidance. If approached by an employee, Managers should discuss, in confidence and establish the nature of addiction and decide on the best course of action to take.

Policy on Alcohol, Drug and Gambling Addiction

An alcohol problem is defined as any drinking whether intermittent or continual, which interferes with the person's health and/or social functioning and/or work capability or conduct.

Drugs are defined as any drug, controlled under the Misuse of Drugs Act 1971, whether illegal or prescribed or over the counter or solvents such as glue, butane etc. In the case of prescribed and over the counter drugs, their possession and use by the prescribed person is acknowledged as legitimate.

A drug problem is defined as the use of illegal drugs, the deliberate use of prescribed or over the counter drugs (when not for a medical condition) and the use of solvents, either intermittent or continual, which interferes with a person's health, and/or social functioning and/or work capability or conduct.

In the case of any prescribed drug and over the counter drugs, their possession and use by the prescribed individual only is acknowledged as legitimate. Employees taking prescribed medication are required to inform their manager if medication may affect their behaviour or performance.

Where possible medication should be stored away in a personal locker/drawer whilst the employee is at work.

Employees must ensure that they do not attend the workplace under the influence of alcohol or illegal drugs and are fit to carry out the duties associated with their roles.

SECTION B - EXTERNAL AGENCY

As neither GHA management nor Trade Union representatives are qualified to diagnose alcohol or drug misuse, we will use an external agency for much of this work. Referrals will be made to the external agency who will assess the nature and extent of any problem and, where appropriate, recommend a recovery programme.

SECTION C - TRAINING

Education on the harmful effects of alcohol, drugs and gambling addiction and the benefits and means of identification of those suffering from alcohol, drug and gambling addiction will be made available to employees.

In respect of alcohol and drugs misuse, we may take the following action:-

- alert employees to the risks associated with alcohol/drug misuse and promote progressive change of attitude regarding their use;
- make employees aware that professional and sympathetic help is available. GHA recognises that dependency on drugs, alcohol, or other substances is an illness and will be treated as such;
- reduce the tendency of collusion and covering up of alcohol/drug misuse by fellow employees/supervisors/managers.

Policy on Alcohol, Drug and Gambling Addiction

- employee's will therefore be offered access to appropriate supports and services. A list of external organisations who can offer support and/or guidance is attached at Appendix 1;
- make employees aware that professional and sympathetic help is available from the Wheatley Group's Employee Assistance Programme.

SECTION D - TYPES OF REFERRAL

In most circumstances, employees will be referred to the external agencies.

Referrals can be made to the external agency in the following ways: Self-Referral, Authorised Management Referral or Disciplinary Referral.

Self-Referral

This is where an employee attends in his/her own time and the details of the referral remain confidential to the individual. On recognition of a problem or potential problem regarding alcohol, drugs or gambling, an employee may seek help from the external agency directly in his/her own time. Such a referral will be confidential between the employee and the counsellor and GHA will have no involvement.

Authorised Management Referral

This is where GHA management arrange an appointment for an employee with the external agencies and grant the employee the necessary time off (with pay) to attend counselling sessions. In these circumstances, GHA will receive confidential confirmation from the external agency that progress is being made and attendance being maintained.

Disciplinary Referral

Where an employee's alcohol, drug or gambling related problem is recognised as resulting in unsatisfactory work performance and/or conduct, disciplinary action may be suspended on the condition that the employee agrees to seek diagnosis and be referred to the external agency. In these circumstances, GHA management will arrange the initial appointment and grant the necessary time off (with pay) for employees to attend counselling sessions at the external agency.

If the employee is accepted by the external agency as having an alcohol, drug or gambling related problem, disciplinary procedures will be suspended providing the employee co-operates and successfully undertakes a recovery programme. Disciplinary action may not be implemented provided that there is a satisfactory and sustained improvement in performance/conduct. The manager chairing the disciplinary hearing will confirm the terms of referral to the employee in writing making clear the implications of non-compliance. If, however, the employee is not accepted by the external agency as having an alcohol, drug or gambling related problem and cannot, therefore, be considered for a recovery programme, the disciplinary hearing will be reconvened under the terms of GHA Disciplinary Policy.

Policy on Alcohol, Drug and Gambling Addiction

If the employee is accepted for counselling but does not complete the recovery programme, the disciplinary hearing will be reconvened under the terms of GHA Disciplinary Policy.

SECTION E - TERMS OF REFERRAL (MANAGERIAL & DISCIPLINARY REFERRALS)

In all instances, the encouragement to seek and accept treatment is on the clear understanding that:-

- the employee complies with the recommended programme of recovery;
- a sustained improvement in work performance, commitment and behaviour is demonstrated e.g. timekeeping, attendance, work performance/conduct;
- the necessary time off with pay will be granted to employees to attend counselling sessions at the external agency;
- Every effort will be made to ensure that the employee will be able to continue to do the same job unless continuing that same job would risk undermining a return to a satisfactory level of job performance or it is mutually agreed that a change will be desirable or beneficial. There may be some circumstance where management reserve the right to transfer an employee to alternative duties whilst they are undertaking a programme of recovery. This will be subject to review when the recovery programme has been completed; and (in relation specifically to alcohol and drugs problems)
- GHA appreciates that following a course of treatment, an employee may relapse, in this situation GHA will offer support where required. This will be reviewed on an individual case by case basis;
- any employee undertaking a recognised recovery programme must observe total abstinence during working hours;
- the employee exhibits no signs of being under the influence of alcohol or drugs when reporting for duty or during working hours. The employee should be aware of the levels of alcohol consumed out with working hours; and;
- Where a course of full time treatment is recommended, such leave will be treated as sick leave.
- Employees attending staff functions or events should be aware of their own safety and those of their colleagues;

Failure to comply with these terms of referral or the committing of further acts of indiscipline or misconduct will lead to a resumption of the disciplinary hearing.

Policy on Alcohol, Drug and Gambling Addiction

SECTION F - CONSIDERATION OF RE-REFERRAL

If, after or during treatment, the employee's work performance suffers as a result of alcohol, drug or gambling related problems, then each case will be considered on its merits and, if considered appropriate, a further opportunity to co-operate with help and treatment may be offered.

SECTION G - EXCEPTIONS

The policy applies to employees who have an identified problem relating to alcohol, drugs or gambling addiction which affects work performance. The application of this policy is limited to those instances of identified alcohol, drug or gambling addiction related problems, which affect the health and/or work performance/conduct of the employee.

The policy does not apply to employees who occasionally drink, take drugs or gamble and, as a result, behave in a manner contrary to the normal standards expected by GHA or those who commit a serious breach of GHA safety and/or conduct rules. Such instances will be dealt with in accordance with normal disciplinary procedures.

SECTION H- ROLE OF THE EXTERNAL AGENCY

The external agency has a dual role. It assists GHA to review and maintain policies on alcohol, drugs and gambling addiction and other related problems and to provide an ongoing programme of education and training.

It also provides a counselling service to which employees are referred in the strictest confidence and where no information of a personal or confidential nature is passed to GHA or Trade Union representative without the employee's consent.

The external agency is independent of GHA or Trade Union influence and operates completely outwith the work environment.

Where the external agency identifies the major problem as being of a welfare nature leading to the employee's alcohol/drug problem, they will refer the employee to Employee Relations who will provide advice and guidance to the employee; which may include monitoring any continued referral to the external agency.

The external agency also acts as a link with other care agencies that deal with alcohol/drugs misuse and gambling addiction.

SECTION I - CONFIDENTIALITY

The confidential nature of any records of employees with alcohol, drugs or gambling related problems will be strictly preserved. Information relating to Managerial and Disciplinary Referrals on the employee's progress on a recovery programme will be forwarded by the external agency to Employee Relations on a regular basis.

Policy on Alcohol, Drug and Gambling Addiction

In the case of a Disciplinary Referral, the referring manager is also informed of the employee's progress. Any enquiries about an employee's progress can only be made to Employee Relations or the designated person.

SECTION J - POLICY DEVELOPMENT

This policy will be reviewed in line with legislation and any amendments will be consulted with employees through Trade Union in their capacity as employee representative.
